

Lauren Pavlidis  
Subject Matter Expert - Melbourne

Bachelor of Behavioural Studies (Psychology) Swinburne University of Technology.

Lauren is our lead researcher in our first stage Discovery project and also runs our post training mentoring program. Lauren has an interest in many areas of mental illness, ranging from phobias, identity issues, relationship issues, communication, PTSD, social media addiction, crisis intervention, drug and alcohol addiction, depression and anxiety with a specialisation in criminality.

Lauren majored in advanced psychology and minored in psychology and criminology. Lauren has also broadened her knowledge and applied skills during her volunteer work for a drug and alcohol addiction clinic. Lauren offers a psychological and cognitive perspective to our team. In 2018, Lauren will be commencing further studies to continue her learning journey and enhance her skill sets. Lauren is currently supporting staff that have undergone CE training to fully operationalise their skills to support clients pursue and achieve open employment outcomes.
